

Zimmer Biomet Institute Technology Forum

The Role of the Dental Laboratory in Utilizing New Techniques and Innovations in Implant Dentistry

PROGRAM DESCRIPTION:

This two-day program for the dental laboratory technician will focus on new techniques and digital technologies for the fabrication of implant-supported restorations, including CAD/CAM abutments, bars and frameworks. Benefits and limitations of intraoral scanners currently available will be discussed, along with advanced design principles used in CAD/CAM abutment design. With the growing demand for full-arch restorations that can be delivered immediately after placement of dental implants, this program will include a comprehensive overview of the laboratory's role in delivering such restorations and hands on demonstrations.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Understand the new digital technologies available for fabricating implant abutments and restorations
- Understand advanced techniques for custom abutment design
- Understand the benefits and limitations of intraoral scanning (IOS) with the BellaTek® Encode® Impression System
- Provide clinical support for the DIEM®2 and RevitaliZe™ Solutions conversion process chairside
- Understand CAD/CAM bar and framework options

ALEXANDER WUENSCHÉ, CDT

Mr. Alexander Wuensche obtained his dental technician certification in 1999 from Otto Umfried Schule, Nürtingen, Germany. Born into a lineage of dentists, Mr. Wuensche was focused on a career in dentistry very early on in life. He completed an intensive technical rotation in dental laboratories of various specialties in Friedrichshafen, Germany to develop a well-rounded depth of knowledge. Shortly thereafter, he founded his own boutique-style laboratory in Ravensburg, Germany. In 2009, Mr. Wuensche transitioned to Miami, Florida to join Zahntechnik, a full-service dental laboratory founded by Mr. Klaus Lampmann, CDT in 1970. In 2014, he and his wife, Danielle Wuensche, assumed ownership of Zahntechnik. Mr. Wuensche specializes in aesthetic and cosmetic restorations, complex implant reconstruction and digital workflows. Some of Mr. Wuensche's recent developments include a digital workflow for the model-free production of immediate provisionals for single tooth implants in the aesthetic zone and the Miami Secondary Bridge (MSB) Technique for over denture restorations. His articles have been published in journals such as Compendium of Continuing Education in Dentistry, Inside Dental Technology, Journal of Dental Technology and Laboratory Management Today. Mr. Wuensche supports several industry leading companies, including Amann Girrbach, Bego, GC America, MPF Brushes, Harvest and Benco in education or development initiatives.

DATE:

Friday, June 2, 2017
Saturday, June 3, 2017

VENUE:

Zimmer Biomet Institute West
1900 Aston Ave.
Carlsbad, CA 92008
760-929-4119

The Role of the Dental Laboratory in Utilizing New Techniques and Innovations in Implant Dentistry

For the event to be held by Zimmer Biomet Institute on June 2, 2017 and June 3, 2017 entitled, The Role of the Dental Laboratory in Utilizing New Techniques and Innovations in Implant Dentistry, Zimmer Biomet Institute is offering to U.S. and Canada based dental laboratory technicians in the following applicable states (**please see list below**):

- Complimentary program registration.
- Three nights lodging (Thursday, June 1, Friday, June 2 and Saturday, June 3) at the Sheraton, 5480 Grand Pacific Drive, Carlsbad, CA 92008. Zimmer Biomet Institute will make lodging reservations once registration is confirmed.
- Transportation to and from the Sheraton and the Zimmer Biomet Institute West.
- Continental breakfast and lunch on June 2, 2017 and June 3, 2017.
- Up to \$350 for one round trip coach airfare ticket from the technician's home city to San Diego International Airport (arriving Thursday, June 1 and departing Sunday, June 4). **Air travel must be booked through the Zimmer Biomet travel agent.** Once registration is confirmed you will receive detailed instructions. If the clinician chooses to drive to the educational event, reimbursement for mileage will be made up to \$350 based on current business mileage reimbursement rates as issued by the IRS. To receive mileage reimbursement, please obtain the necessary expense reimbursement form from Zimmer Biomet Institute. A copy of the completed expense reimbursement form needs to be submitted to Zimmer Biomet Institute within 30 days of the event, along with the airfare receipt and a completed IRS Form W-9.
- Air travel must be booked through the Zimmer Biomet travel agent within two weeks of registration confirmation. Failure to book air travel within two weeks of receiving registration confirmation will forfeit your seat in the event. Travel insurance and other insurance not provided by Zimmer Biomet. Registrant is solely responsible for obtaining all insurance.

Certain state and federal laws require disclosure of information on compensation, reimbursement, or other expenses paid by Zimmer Biomet Institute to clinicians. In this regard, clinician agrees to complete any such reporting forms and to comply with any additional information requests from Zimmer Biomet Institute. Once reported to the applicable state and federal agencies, such information may be publicly accessible.

APPLICABLE STATES/ PROVINCES/ TERRITORIES INCLUDE: Alaska, Alberta, Arizona, British Columbia, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Northwest Territories, Oklahoma, Oregon, Saskatchewan, South Dakota, Texas, Utah, Washington, Wyoming, and Yukon.

DISCLOSURE: Zimmer Dental, Inc. and Biomet 3i, LLC (part of the Zimmer Biomet Dental Division) manufacture and distribute products discussed in this course. This course is designed to present a fair and balanced view of all options.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy.

IMPORTANT: Massachusetts and Vermont laws prohibit manufacturers of dental devices from providing free meals to clinicians under certain circumstances. Please notify your host if you are licensed to practice in either of these states.

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. Zimmer Biomet Institute reserves the right to cancel a course no later than 14 days prior to the course date. Please be aware that Zimmer Biomet Institute is not responsible for reimbursement of travel expenses in the event that a course is cancelled.
