

# Implant Restorative Options for Edentulous and Partially Edentulous Patients

## HANDS-ON WORKSHOP

### PROGRAM DESCRIPTION:

This two-day program is designed to support restoring clinicians, in conjunction with their surgical specialists, in their decision-making process when treating edentulous and partially edentulous patients with fixed and/or removable implant prosthodontics. They will learn basic to intermediate implant restorative options and techniques through lecture and hands-on exercises in a state-of-the-art Simulated Patient Training Laboratory, which allows for real-life case scenarios on one-of-a-kind proprietary simulation patients.

**Day 1** will focus on diagnosis and treatment planning using basic prosthodontic principles. Information will be presented in lecture and group discussion formats. Laboratory procedures will be accomplished regarding implant/abutment impressions, master casts and fabrication of screw-retained provisional restorations.

**Day 2** will focus on full arch, fixed and removable implant prostheses. The benefits and limitations of screw-versus cement-retained implant restorations, screw mechanics, abutment selection criteria, and occlusion for definitive prostheses will be thoroughly discussed. The laboratory exercises will concentrate on removable, implant-supported overdentures including clinical and laboratory steps needed in fabricating stable, retentive removable overdentures. The day will conclude with treatment planning individual cases that the attendees have brought along with them.

### PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Identify patients who are candidates for fixed and removable implant-supported restorations.
- Develop treatment plans for edentulous and partially edentulous patients utilizing implant-supported prostheses.
- Make implant/abutment impressions and soft-tissue master casts for definitive prostheses.
- Fabricate a multiple-unit, screw-retained provisional prosthesis for an implant-supported fixed partial denture.
- Fabricate a provisional implant with optimal gingival contours and easy access for oral hygiene.

### Program Fee\*

\$750 Tuition only  
\$2,100 Tuition,  
travel and hotel  
(*program fee,  
travel and hotel*)

### Course Level

Clinicians restoring  
10 or more  
full-arch cases  
per year

### CE Credit

7 Didactic  
7 Participation

### DATE/TIME:

Friday, December 6, 2019  
Saturday, December 7, 2019  
Registration/Breakfast: 7:45 a.m.  
Seminar: 8:00 a.m. – 5:00 p.m.

### VENUE:

Zimmer Biomet Institute East  
399 Jefferson Road  
Parsippany, NJ 07054

## JAMES A. RIVERS, DMD, MHS

Dr. Rivers received his dental degree, Masters in Health Science degree and graduate prosthodontics training at the Medical University of South Carolina. He recently retired from dental academics after thirty years service. Dr. Rivers is the recipient of numerous awards for his contributions to dental education, to the profession, and his community, and is an active member of several professional organizations. He has presented more than 500 lectures nationally and internationally on all aspects of dental implant restorative procedures.

## GLEN APPLEBAUM, DDS

Dr. Applebaum graduated from Rensselaer Polytechnic Institute in 1978 receiving a Bachelor of Science Degree in Chemistry. He is the recipient of the William Pitt Mason Prize and Class of 1902 Research Prize both awarded by Rensselaer. He received his D.D.S. degree from New York University College of Dentistry in 1981 and completed a one year residency program in General Dentistry at New Rochelle Hospital Medical Center in 1982. Dr. Applebaum is a member of the ADA, Dental Society of the State of New York, and Ninth District Dental Society. He is also a member of the American College of Oral Implantology and serves as both an implant prosthetic speaker for Zimmer Dental and Adjunct Instructor at the Medical University of South Carolina Dental School. Dr. Applebaum achieved Fellowship status in the International Congress of Oral Implantologists (ICOI) and Mastership status in the Implant Prosthodontic Section (IPS) of the ICOI, and has served as Vice Director of the Membership Committee of the IPS. He also served as prosthetic advisor to the Westchester Implant Study Club from 1995-1997. Dr. Applebaum was the recipient of first place honors in table clinic presentations at the annual IPS meeting in 1999, and he has been published in the Canadian Dental Journal Oral Health, the Journal of Nuclear Medicine and Dental Surgery Products. Dr. Applebaum maintains a practice in general dentistry in New Rochelle, New York, has been involved with implant dentistry for 28 years and has been presenting seminars for restorative dentists since 1995.

### ADA CERP®

Continuing Education Recognition Program

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

Zimmer Dental Inc.  
Nationally Approved PACE Program  
Provider for MAGD/MAGDO credits.  
Approval does not imply acceptance by  
any regulatory authority or AGD endorsement.  
01/01/2016 to 12/31/2018  
Provider ID# 208673

**DISCLOSURE:** Zimmer Biomet Dental manufactures and distributes products discussed in this course. This course is designed to present a fair and balanced view of all options.

**DISCLAIMER:** Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice.

Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or

constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.

**IMPORTANT:** Massachusetts and Vermont laws prohibit manufacturers of dental devices from providing free meals to clinicians under certain circumstances. Please notify your host if you are licensed to practice in either of these states.

**REGISTRATION AND CANCELLATION POLICY:** In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. Zimmer Biomet Dental reserves the right to cancel a course no later than 14 days prior to the course start date. Please be aware that Zimmer Biomet Dental is not responsible for reimbursement of travel expenses in the event that a course is cancelled. In the event that a registrant needs to cancel, written notification must be sent to institute@zimmerbiomet.com at least 30 days prior to the course date to receive a full refund. Cancellations received less than 30 days, but more than 15 days prior to the course date will receive a 50% refund. No refunds are provided after this date. A \$25 administration fee will apply to all attendee cancellations. Please allow 2 weeks for refunds. "No shows" will not qualify for refunds.

**TRANSPARENCY REPORTING:** All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of Value" items include meals and continuing dental education credits.
