

Treatment Planning for Optimal Implant Restorative Outcomes

Speaker: Gilbert K Watson, BDS, MDS

PROGRAM DESCRIPTION:

This program will concentrate on treatment guidelines for achieving optimal aesthetics in implant dentistry. During the program, the following topics will be covered:

- Case planning & Treatment options (bring cases to discuss)
- Impression Options & Encode
- Immediate Provisional restorations – restoring a single implant within 24 hours of surgery
- Surgical Guides – what the surgeon expects & tips on how to make
- Do's & Don'ts of Overdenture Bars
- Abutment Crown options – when to choose which

Speaker: Gilbert K Watson, BDS, MDS

Dr Gilbert Watson graduated in 1984 with a BDS from University of Otago. He then spent 14 years in private practice before returning to Otago to complete a 3-year Prosthodontic Masters.

As part of his MDS he completed research based on the maintenance involved with implant overdentures having two papers published in peer reviewed

international journal - The International Journal of Prosthodontics.

On returning to Auckland Dr Watson established a specialist private practice, and became editor of the Auckland Dental Association newsletter as well as facilitator for the New Graduate Programme for a number of years. Dr Watson completed a two-year tenure as the President of the New Zealand Academy of Prosthodontists and Restorative Dentists and has been asked on a number of occasions to be an external examiner for Otago undergraduates as well as being on the board of advisors for the review of the Dental Technicians and Clinical Dental Technicians course. He currently works in a private practice in Auckland specialising in crown and bridge, dentures and partial dentures and implant support prostheses. He lectures for a number of different organizations throughout Australia and New Zealand.
