

Guided Implant Therapy for Immediate Implant Placement & Provisional Restoration of the Full Arch

HANDS-ON WORKSHOP

PROGRAM DESCRIPTION:

This presentation will outline the clinical steps required for successful planning and execution by the implant team to deliver guided full-arch implant rehabilitation. CT technology and current computer software applications greatly enhance the ability of the implant team to diagnose, treatment plan, and perform implant-supported therapy in a more sophisticated and profound way with greater accuracy, lower morbidity, and in shorter timeframes to meet patients' demands. In this program, a CT guided implant treatment protocol will be discussed for fabrication of a laboratory processed full arch restoration to be delivered at the time of implant placement, as well as how a guided protocol can ultimately lead to an optimally fitting definitive prosthesis.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Learn the nuances of top-down treatment planning to successfully plan for implant-supported therapy for the full arch.
- Have a working knowledge of working with the surgeon/laboratory team to design prefabricated provisional restorations for immediate placement.
- Understand the preoperative steps necessary to plan for ideal implant placement
- Communicate the treatment plan with surgical, restorative and laboratory professionals to create an effective team approach and optimal patient outcomes
- Plan and execute the surgery and restoration
- Understand these cases from the patient perspective
- Identify the appropriate restorative components needed for full-arch provisional restorations
- Fabricate an immediate full-arch provisional restoration by following the guidelines for RevitaliZe® Patient Solutions

Guided Implant Therapy for Immediate Implant Placement & Provisional Restoration of the Full Arch

HANDS-ON WORKSHOP

RICK A. KAPITAN, DDS, MS

Dr. Rick Kapitan is a Board Certified Oral & Maxillofacial Surgeon specializing in cleft lip/palate surgery, orthognathic (jaw realignment) surgery, facial trauma repair, bone grafting, and dental implant reconstruction. Dr. Kapitan holds both a doctorate in surgery and master's of science degrees, as well as advanced training as a specialist in surgery and anesthesia (OMS) from The Ohio State University Medical Center. Dr. Kapitan is a Diplomate of the American Board of OMS a Fellow of the American Association of OMS. He holds appointments as Adjunct Faculty in the Department of Oral & Maxillofacial Surgery at both Louisiana State University (LSU) and the University of North Carolina, Chapel Hill (UNC). Locally, he is the Director of both the Carolinas Center for Cleft Lip & Palate Surgery and of the Envision™ Implant Academy, positions that both involve speaking to groups of practitioners and extensive clinical instruction in surgery. Additionally, Dr. Kapitan is a national lecturer and clinical course instructor in advanced dental implant surgery for Zimmer Biomet Institute. Internationally, Dr. Kapitan is a volunteer cleft surgeon, surgical team leader, and sits on the Board of Directors of the Free To Smile Foundation; a not-for-profit medical mission group that provides free cleft lip and palate surgeries to children in need around the globe.

ADA CERP®

Continuing Education Recognition Program

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

Zimmer Dental Inc.
Nationally Approved PACE Program
Provider for FAGD/MAGD credits.
Approval does not imply acceptance by
any regulatory authority or AGD endorsement.
01/01/2018 to 12/31/2018
Provider ID# 208673

DISCLOSURE: Zimmer Biomet Dental manufactures and distributes products discussed in this course. This course is designed to present a fair and balanced view of all options.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or

constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.

IMPORTANT: Massachusetts and Vermont laws prohibit manufacturers of dental devices from providing free meals to clinicians under certain circumstances. Please notify your host if you are licensed to practice in either of these states.

REGISTRATION AND CANCELLATION POLICY: In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. Zimmer Biomet Dental reserves the right to cancel a course no later than 14 days prior to the course start date. Please be aware that Zimmer Biomet Dental is not responsible for reimbursement of travel expenses in the event that a course is cancelled. In the event that a registrant needs to cancel, written notification must be sent to institute@zimmerbiomet.com at least 30 days prior to the course date to receive a full refund. Cancellations received less than 30 days, but more than 15 days prior to the course date will receive a 50% refund. No refunds are provided after this date. A \$25 administration fee will apply to all attendee cancellations. Please allow 2 weeks for refunds. "No shows" will not qualify for refunds.

TRANSPARENCY REPORTING: All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of Value" items include meals and continuing dental education credits.
