

CE WEBCAST

Some dental patients present with the singular goal of ending painful dental emergencies. Or they may be seeking limited solutions to cosmetic problems. However dentists have a responsibility to offer such patients a thorough plan for restoring their mouths to optimal health. This webinar will describe the use of a six-step protocol for phasing comprehensive dental therapy.

After completion of the program, participants should be able to:

- Identify the steps involved in a comprehensive treatment plan.
- Understand the important information that must be gathered in order to develop an ideal treatment plan for each patient.
- Effectively communicate to patients the need for comprehensive care.
- Demonstrate a working knowledge of the treatment phases necessary for optimizing outcomes.

Bruce Ouellette, DDS

Dr. Ouellette received his dental degree from the University of Maryland in Baltimore, MD. His professional affiliations include the American Dental Association, the American Society of Osseointegration, the International Congress of Oral Implantology, the Florida Academy of Cosmetic Dentistry, the Florida Dental Association, and the Palm Beach County Dental Association. Dr. Ouellette is on the faculty at the Dawson Academy For Advanced Dental Study in St. Petersburg, FL and is a clinical instructor for the Palm Beach State College. He maintains a private practice with a focus on occlusion, aesthetics, implant reconstruction, and TMJ in West Palm Beach, FL.†
