

# Prosthetic Driven Implant Treatment

Speaker: Matthias Stamm, DMD, PhD

## PROGRAM DESCRIPTION:

This two day program is designed for clinicians who have recently started placing implants and would like to enhance their surgical skills in performing aesthetic implant procedures, particularly with regard to regenerative and immediate implant protocols. The program will begin with diagnostics and treatment planning followed by hands-on exercises, providing participants with an opportunity to expand their knowledge and refine their surgical skills.

### DAY 1

## DIAGNOSTICS AND TREATMENT PLANNING

- Patient Selection
- Types of Implants - Short vs long implants, angle implants in anterior and posterior
- Use of Carestream Software

## HANDS ON COMPONENT:

- Placing Implants
- Impression taking
- Temporisation for anterior

### DAY 2

## INTERMEDIATE IMPLANTS WITH SOFT TISSUE AND BONE HEIGHT MANAGEMENT

- Patient and case selection criteria
- Treatment planning
- Possible complications and how to avoid

## HANDS ON COMPONENT:

- Placing anterior Implants
- Bone grafting
- Membrane placement

Speaker: Matthias Stamm, DMD, PhD

Dr Matthias Stamm graduated from the University of Freiburg (Germany) in 1995 with his Doctorate degree in Dental Surgery. He continued his studies to include Implantology and Periodontology. Matthias went on to become an Associate Professor of Oral Surgery and Implantology at the University of Dusseldorf, followed by ownership of a private clinic in Overath, Germany.

He moved to Whangarei in 2016 and joined the team at Kowhai Dental in May, 2017. He continues to be a world-renown speaker on Implantology and Restorative Dentistry.

**DISCLOSURE:** Products discussed in this course are manufactured by one or more of the dental subsidiaries of Zimmer Biomet Holdings, Inc., and distributed and marketed by Zimmer Biomet Dental (and, in the case of distribution and marketing, its authorized marketing partners). JST 3-2-2020. This course is designed to present a fair and balanced view of all options.

**DISCLAIMER:** Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.

\*NZDA course accreditation does not imply promotion or endorsement of the contents of any course.

Attendees need to use professional judgment to assess the validity and usefulness of techniques, materials or therapeutic products to their own practice.

**REGISTRATION AND CANCELLATION POLICY:** Registration is limited to practicing clinicians. In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. Zimmer Biomet Dental reserves the right to cancel a course no later than 14 days prior to the course date. Please be aware that Zimmer Biomet Dental is not responsible for reimbursement of travel or accommodation expenses in the event that a course is cancelled. In the event that the registrant needs to cancel, written notification must be sent to [ema.filimoto@zimmerbiomet.com](mailto:ema.filimoto@zimmerbiomet.com).

**TRANSPARENCY REPORTING:** All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of Value" items include meals and continuing dental education credits.
