Treatment Planning Considerations for the Maxillary Arch: Fixed vs. Removable Prostheses

LIVE CE WEBCAST

PROGRAM DESCRIPTION:
This program will present the fundamentals of fixed prosthodontics through complex implant cases. Three-dimensional radiography, proposed prosthesis form, residual intraoral anatomy, and extraoral facial form must all be considered to arrive at a comprehensive evaluation and implant treatment plan for a completely edentulous arch. Clinical case examples which may be well suited for a removable prosthesis will be presented. The maxillary edentulous arch includes additional considerations not applicable to the mandibular arch. This program will guide participants through recognition of critical issues that will lead to dependable outcomes.

PROGRAM OBJECTIVES:
At the completion of the program, participants should be able to:

• Understand the application of fundamental fixed prosthodontics to complex implant applications.
• Learn the value of clinical data combined with radiographic data to plan a maxillary edentulous case.
• Decide which clinical presentations may be more easily addressed with a removable prosthesis.
• Assess the design considerations unique to a maxillary fixed complete denture compared to a mandibular denture.

Louis DiPede DMD, FACP
Dr. DiPede received a dental degree and Certificate in Advanced Education in General Dentistry from Rutgers School of Dental Medicine. After private general practice, he earned a Certificate in Prosthodontics at the University of California, Los Angeles, and then completed a subspecialty fellowship in Maxillofacial Prosthetics and Dental Oncology at Memorial Sloan-Kettering Cancer Center in New York. Dr. DiPede remained in Manhattan, in full-time private practice limited to Prosthodontics, before accepting a faculty appointment at Rutgers School of Dental Medicine where he directed multiple courses; served as Interim Chair of the Department of Restorative Dentistry as well as Vice Department Chair and Program Director of Postgraduate Prosthodontics. Dr. DiPede is a Board Certified Prosthodontist, Diplomate of the American Board of Prosthodontics, and holds Fellowship status in numerous professional organizations. He is currently the Associate Dean for Graduate Education and oversees the Faculty Practice at Temple University, Kornberg School of Dentistry.

The information being presented is of a general nature and is for dental education purposes only. The information includes descriptions of conditions that a healthcare professional may encounter and treatment options that may be considered for those conditions. Because this information does not purport to constitute any diagnostic or therapeutic statement with regard to any individual medical/dental case, each patient must be examined and advised individually, and this information does not replace the need for such examination and/or advice in whole or in part. Each healthcare professional should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this information does not purport to replace the comprehensive training clinicians have received.

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. Zimmer Biomet Dental reserves the right to cancel or substitute this program.

TRANSPARENCY REPORTING: All payments and “transfer of value” items provided to health care providers will be reported as required by federal and state laws and regulations. “Transfer of value” items include meals and continuing dental education credits. “The fair market value of this complimentary program will be reported as required under any transparency laws applicable in your region. In the USA, the reportable value per credit hour is USD $50.
