PROGRAM DESCRIPTION:
Today’s patients test the boundaries of implant dentistry. From systemic health issues and frequent periodontal disease, to ever-increasing aesthetic and immediacy demands, clinicians need advanced solutions that are easy to implement. This program outlines clinically-documented protocols to treat these challenging cases in new and innovative ways. Additionally, a simplified impression technique that facilitates fabrication of patient-specific abutments will be discussed, and guidelines for intraoral scanning and CAD/CAM abutment design will be presented.

PROGRAM OBJECTIVES:
At the completion of the program, participants should be able to:

- Identify patients who may be candidates for Rapid Recovery, Risk Management and Revision Therapy protocols.
- Describe how implant design can affect long-term success.
- Understand the team approach for 3D planning through CAD/CAM restoration, between the surgeon, the restoring dentist, and the laboratory technician.
- Integrate digital impressions and CAD/CAM restorations into implant therapy.

Suheil Boutros, DDS, MS
Dr. Boutros received his dental degree from University of Detroit, Mercy School of Dentistry, Detroit, MI, and a Master’s of Science and Certificate in Periodontics from University of Minnesota, School of Dentistry, Minneapolis, MN. He is a Visiting Assistant Professor in the Department of Periodontics, University of Michigan, School of Dentistry, Ann Arbor, MI. Dr. Boutros has numerous publications in the peer-reviewed literature and is in private practice in Grand Blanc, Clarkston, and Dearborn Heights, MI with an emphasis on periodontics, implants, and regenerative therapy.

Brian Bray, DMD
Dr. Bray earned a BS and Master’s degree in Speech-Language Pathology from Texas Christian University. He later graduated from Oregon Health and Science University then completed a Prosthodontics residency at Nova Southeastern University in Fort Lauderdale, Florida. Dr. Bray is currently a member of the American Dental Association, American College of Prosthodontists, Academy of Osseointegration, and International Team for Implantology. Dr. Bray maintains a private practice, specializing in removable, fixed, and implant Prosthodontics, in Portland, Oregon.

Certain state and federal laws require disclosure of information on compensation, reimbursement, or other expenses paid by Zimmer Biomet Dental to clinicians. In this regard, clinician agrees to complete any such reporting forms and to comply with any additional information requests from Zimmer Biomet Dental. Once reported to the applicable state and federal agencies, such information may be publicly accessible.

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

DISCLOSURE: Zimmer Biomet Dental manufactures and distributes products discussed in this course. This course is designed to present a fair and balanced view of all options.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.

IMPORTANT: Massachusetts and Vermont laws prohibit manufacturers of dental devices from providing free meals to clinicians under certain circumstances. Please notify your host if you are licensed to practice in either of these states.

REGISTRATION AND CANCELLATION POLICY: In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. Zimmer Biomet Dental reserves the right to cancel a course no later than 14 days prior to the course start date. Please be aware that Zimmer Biomet Dental is not responsible for reimbursement of travel expenses in the event that a course is cancelled. In the event that a registrant needs to cancel, written notification must be sent to institute@zimmerbiomet.com at least 30 days prior to the course date to receive a full refund. Cancellations received less than 30 days, but more than 15 days prior to the course date will receive a 50% refund. No refunds are provided after this date. A $25 administration fee will apply to all attendee cancellations. Please allow 2 weeks for refunds. “No shows” will not qualify for refunds.

TRANSPARENCY REPORTING: All payments and “transfer of value” items provided to health care providers will be reported as required by federal and state laws and regulations. “Transfer of Value” items include meals and continuing dental education credits.
