INNOVATION & INSIGHTS SUMMIT

The Innovation & Insights Summit in Atlanta, Georgia is a full day of scientific and clinical presentations. Presented by leaders in the dental implant therapy market, this Summit will highlight exciting and new regenerative techniques, and review the latest scientific findings in the field of grafting materials and regenerative therapies, including regenerative patient-specific digital solutions. In addition, we will explore the innovative world of Trabecular Metal™ Technology, focusing on rapid recovery, implant treatment in high-risk patients, and revision implant therapy. Long-term clinical follow-up on porous tantalum-enhanced dental implants will also be presented.

Participants will be encouraged to take part in opinion/user surveys on current and potential future implant and regenerative solutions.

FEATURED SPEAKERS

Dennis Tarnow, DDS
Bone Grafting to Maximize Results in Immediate Placement of Implants in the Aesthetic Zone
