

# Clinical and Laboratory Guidelines for Hybrid CAD/CAM Framework Design

## CE WEBCAST

CAD/CAM implant frameworks have proven to be more accurate, biocompatible, and longer lasting, with fewer complications than cast-metal frameworks. This webinar will review advances in CAD/CAM protocols and their resulting benefits, including decreased labor costs, improved long-term results due to better physical properties, improved accuracy, and decreased frequency of prosthetic complications.

After completion of the program, participants should be able to:

- Identify anterior/posterior spreads on master casts and explain how they relate to framework design.
- Design full-arch frameworks using evidenced-based parameters including metal design, retentive elements, prosthesis type, and cantilever length.
- Troubleshoot problems associated with long-term, full-arch, implant prostheses.
- Explain the mechanical properties of various materials used in CAD/CAM protocols.

**Carl Drago, DDS, MS, FACP**

Dr. Drago received his DDS from The Ohio State University College of Dentistry and MS from the University of Texas Graduate School of Biomedical Sciences at San Antonio. Dr. Drago is a Diplomate of the American Board of Prosthodontics, a Fellow in the American College of Prosthodontists and the American College of Dentists. He has more than 80 published articles and has written four textbooks on dental implants. He is an Adjunct Associate Professor in Graduate Prosthodontics at Marquette University School of Dentistry. He maintains a private practice limited to fixed, removable, and implant prosthodontics in LaCrosse, Wisconsin. †

**DATE/TIME:** On Demand-Viewing

**CONTINUING EDUCATION:** 1 Credit

**FEE:** Complimentary\*

**TO REGISTER FOR THIS PROGRAM:**

- Go to [zimmerbiometdental.com/on-demand](http://zimmerbiometdental.com/on-demand)

For additional information regarding this program, please contact the Zimmer Biomet Dental Education Department at: [events@zimmerbiomet.com](mailto:events@zimmerbiomet.com).

Zimmer Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Zimmer Dental designates this activity for one continuing education credit. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at [www.ada.org/cerp](http://www.ada.org/cerp). **REGISTRATION AND CANCELLATION POLICY:** This educational activity is offered for self-study continuing education. Zimmer Biomet Dental reserves the right to cancel or substitute this program. Registration is limited to practicing clinicians. **TRANSPARENCY REPORTING:** All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of value" items include meals and continuing dental education credits. \*The fair market value of this complimentary program will be reported as required under any transparency laws applicable in your region. In the USA, the reportable value per credit hour is USD \$50. All trademarks are the property of Zimmer Biomet or affiliates, unless otherwise indicated.
