PROGRAM DESCRIPTION:
The terminal dentition presents significant diagnostic and treatment planning challenges. Loss of teeth caused by severe periodontal disease, as well as caries, often results in disfigurement, infection and loss of function. Severe bone loss may ensue. The multiplicity of treatment options available to treat the failing dentition will be elucidated with a clear algorithm which allows the doctor to guide the patient decision making process. With the predictability of implant therapy, patients previously without hope can be restored to health and aesthetics.

PROGRAM OBJECTIVES:
At the completion of the program, participants should be able to:
- Learn the Treatment Planning Checklist – Examination, Diagnosis, Treatment Plans, and Treatment.
- Understand the costs, risks, and benefits to the multiplicity of patient treatment options.
- Realize that bone is the most important requirement for implant success.
- Understand the various forms of treatment for full mouth implant restorations including removable and fixed options.

Michael Sonick, DDS
Dr. Sonick is a graduate of Colgate University, the University of Connecticut School of Dental Medicine, and Emory University School of Dentistry in Periodontics. He currently is a Guest Lecturer at New York University School of Dentistry in their international dental program and a former Clinical Assistant Professor in the Department of Surgery at Yale University School of Medicine. Dr. Sonick is Founder and Director of the Fairfield County Dental Club. He lectures, both domestically and internationally, and maintains a private practice, devoted to Periodontics, in Fairfield, CT.

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. Zimmer Biomet Dental reserves the right to cancel or substitute this program.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.
