

The Technology of Grafting Materials

How to Select the Best Regenerative Materials to Meet the Clinical Need

Speaker: Ms. Terri Oto

PROGRAM DESCRIPTION:

This program will review the chemical and physical properties of various regenerative materials to assist clinicians in selecting the best materials to meet the clinical need of a patient. A comprehensive review of the Zimmer Biomet Dental Regenerative Portfolio will be presented to provide a working knowledge in the selection of the most optimal bone graft material or membrane for the defect, including how processing methods may affect treatment outcomes.

PROGRAM OBJECTIVES:

At the end of the program, the participant should be able to:

- Describe various allografts, xenografts, and synthetic bone graft materials.
- Select the most optimal graft material and membranes to meet the patient need.
- Have a working knowledge of the impact of processing methods on the matrix/consistency of regenerative materials.
- Understand the placement and handling characteristics of various grafting materials.

SPEAKER: Ms Terri Oto

Ms. Terri Oto is a Certified Tissue Bank Specialist with the American Association of Tissue Banks. She is an accomplished professional with over 20 years of experience in medical devices and biologic implants in many specialties: Periodontology, Oral & Maxillofacial Surgery, General Surgery, Gynecology, Ophthalmology, Orthopaedics, otolaryngology, Plastic & Reconstructive Surgery and Urology. Registrations are available on a first-come, first-served basis as seating is limited.

DISCLOSURE: Products discussed in this course are manufactured by one or more of the dental subsidiaries of Zimmer Biomet Holdings, Inc., and distributed and marketed by Zimmer Biomet Dental (and, in the case of distribution and marketing, its authorized marketing partners). JST 3-2-2017. This course is designed to present a fair and balanced view of all options.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.

*NZDA course accreditation does not imply promotion or endorsement of the contents of any course. Attendees need to use professional judgment to assess the validity and usefulness of techniques, materials or therapeutic products to their own practice.

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. Zimmer Biomet Dental reserves the right to cancel a course no later than 14 days prior to the course date. Please be aware that Zimmer Biomet Dental is not responsible for reimbursement of travel expenses in the event that a course is cancelled. In the event that the registrant needs to cancel, written notification must be sent to ema.filimoto@zimmerbiomet.com.

TRANSPARENCY REPORTING: All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of Value" items includes meals and continuing dental education credits.
