

Building a Healthy Foundation for Implant Placement

Speaker: Nicholas Cole, BDS, MSc (Perio), MDS

PROGRAM DESCRIPTION:

This half-day program will review various regenerative materials to assist clinicians in selecting the best materials to meet the clinical need of a patient. An overview of the Zimmer Biomet Dental Regenerative Portfolio will be presented to provide a working knowledge in the selection of the most optimal bone graft material or membrane for the defect, including how processing methods may affect treatment outcomes. This program will be of particular interest for general practitioners regarding diagnosis and assessment of clinical conditions and whether or not the patient needs to be referred to a surgical specialist. Numerous clinical cases will be illustrated. The following topics will be covered:

- Rationale for Ridge Preservation - Delayed Placement vs. Immediate Placement and Simultaneous Grafting
- Decision making criteria for selecting allograft or xenograft
- Flap Design
- Suturing Techniques and Materials
- Program includes Hand On component with "take home" model and instrument pack

Speaker: Nicholas Cole, BDS, MSc (Perio), MDS

Dr Nicholas Cole graduated BDS from the University of Otago in 1981. In 1986 he completed a MSc in Periodontology at the University of London. Following this he returned to New Zealand and worked in a group general practice with a special interest in periodontics. Starting in 1991 he did his first introductory implant course. Implants and periodontology became a significant focus of his general practice.

In 1998 he returned to Dunedin and completed specialist training gaining his MDS with distinction. Since 2000 he has been in specialist practice at St Marks Road. He practices a mix of periodontology and implant dentistry.

He has been and continues to be actively involved with numerous professional organizations, and is the NZ councilor for ANZAP, the Australian and New Zealand Academy of Periodontology.

JST 3-2-2020. This course is designed to present a fair and balanced view of all options.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.

*NZDA course accreditation does not imply promotion or endorsement of the contents of any course. Attendees need to use professional judgment to assess the validity and usefulness of techniques, materials or therapeutic products to their own practice.

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. Zimmer Biomet Dental reserves the right to cancel a course no later than 14 days prior to the course date. Please be aware that Zimmer Biomet Dental is not responsible for reimbursement of travel or accommodation expenses in the event that a course is cancelled. In the event that the registrant needs to cancel, written notification must be sent to ema.filimoto@zimmerbiomet.com.

TRANSPARENCY REPORTING: All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of Value" items include meals and continuing dental education credits.
