

IMMEDIATE AND DEFINITIVE RESTORATIONS OF THE EDENTULOUS ARCH HANDS-ON WORKSHOP

Speakers: Vahik Paul Meserkhani, DDS and Tony Daher, DDS

ZIMMER BIOMET
Institute

PROGRAM DESCRIPTION:

Patients with debilitated or missing dentitions often seek rehabilitation to quickly regain masticatory function, esthetics, and quality of life. Clinicians can now predictably offer treatment solutions for immediate full arch restorations to meet patient demands and expectations.

This program combines didactic and hands-on training to show participants a step-by-step, practical approach to deliver provisional prostheses on the day of implant placement; definitive prostheses can be fabricated and delivered in an appropriate timeframe.

The hands-on exercise of this course will take place in a state-of-the-art Simulated Patient Training Laboratory. This provides clinicians with laboratory experiences needed to perform these types of procedures including the steps needed to fabricate immediate, functional, full-arch provisional restorations; definitive prosthesis design and fabrication will also be discussed.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Identify patients who are candidates for immediate full-arch restorations.
- Diagnose, treatment plan and set up the requisite appointments/logistics for these procedures.
- Identify the procedures/discussions essential to gaining patient acceptance of this type of treatment.
- Identify appointment types and lengths of time needed for efficient treatment.
- Fabricate and insert immediate provisional restorations (single tooth and full arch).
- Fabricate and insert definitive restorations (single and full arch).
- Fabricate an immediate full-arch provisional restoration by following the DIEM2[®] guidelines.

VAHIK PAUL MESERKHANI, DDS

Dr. Vahik Paul Meserkhani has lectured extensively on the subject of prosthodontics and implant dentistry both nationally and internationally. He received his implant surgical fellowship from Loma Linda University in 2003 followed by a Certificate in Prosthodontics and MSD degree in Prosthodontics specialty. He has numerous publications about prosthodontics and implant related subjects as well as a recent study at the Loma Linda University about the accuracy of stereolithographic models. He is a Diplomate of of the American Board of Oral Implantology, Fellow of the American Academy of Implant Dentistry, and Board eligible by the American College of Prosthodontics. He maintains a private practice limited to prosthodontics and implant dentistry in Glendale, California.

IMMEDIATE AND DEFINITIVE RESTORATIONS OF THE EDENTULOUS ARCH HANDS-ON WORKSHOP

ZIMMER BIOMET
Institute

Speakers: Vahik Paul Meserkhani, DDS and Tony Daher, DDS

TONY DAHER, DDS

Dr. Tony Daher began practicing dentistry in California in 1982 and his love for teaching promoted him to earn a Master's of Science degree in Medical Education from the University of Southern California (USC) in 1984. Dr. Daher received a postgraduate certificate in Prosthodontics in 1988 from the University of California at Los Angeles (UCLA). He was the clinic director for the international student program at U.S.C. in 1991; and director of the Graduate Prosthodontic Program at Loma Linda University. Dr. Daher is currently a Clinical Associate Professor of Prosthodontics in the Center for Prosthodontics and Implant Dentistry at Loma Linda University (LLU) and a Lecturer for the UCLA Advanced Prosthodontic Program.

He has written many scientific and clinical articles, and has lectured nationally and internationally on the subject of Prosthodontics. He is a Diplomate of the American Board of Prosthodontics, a Fellow in the American College of Prosthodontists, a Fellow in the International college of dentists and an active member in numerous organizations. Dr. Daher maintains a private practice limited to Prosthodontics in LaVerne, California.

Zimmer Biomet is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Zimmer Biomet designates this activity for up to 2 continuing education credits. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

Zimmer Biomet Dental is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by the GD for Fellowship/Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from 01/01/15 to 12/31/18. Provider ID 208673.

DISCLOSURE: Zimmer Dental, Inc. and Biomet 3i, LLC (part of the Zimmer Biomet Dental Division) manufacture and distribute products discussed in this course. This course is designed to present a fair and balanced view of all options.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy.

IMPORTANT: Massachusetts and Vermont laws prohibit manufacturers of dental devices from providing free meals to clinicians under certain circumstances. Please notify your host if you are licensed to practice in either of these states.

REGISTRATION AND CANCELLATION POLICY: In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. In the event that a registrant needs to cancel, written notification must be sent to institute@zimmerbiomet.com at least 30 days prior to the course date to receive a full refund. Cancellations received less than 30 days, but more than 15 days prior to the course date will receive a 50% refund. No refunds are provided after this date. A \$25 administration fee will apply to all attendee cancellations. Please allow 2 weeks for refunds. "No shows" will not qualify for refunds.
