PROGRAM DESCRIPTION:
Delivering aesthetic immediate and long-term implant restorations on a consistently predictable basis can be challenging. As single and two-stage protocols have given way to immediate implant placement and immediate restoration, biomechanical requirements and aesthetic demands have evolved. This webinar will review changes in treatment planning, implant site preparation, and immediate restoration of implants in the aesthetic zone.

PROGRAM OBJECTIVES:
At the completion of the program, participants should be able to:
- Implement new techniques for selecting cases and using CT scans in treatment planning.
- Understand the biomechanical and aesthetic considerations for achieving high primary stability.
- Understand the proper placement of implants in extraction sockets and the rationale for grafting the gap between the implant and buccal socket wall.
- Describe how to design and fabricate provisional restorations.

Harold Baumgarten, DMD
Dr. Baumgarten received his dental degree, as well as Certificates in Periodontal Prosthetics and Periodontics, from the University of Pennsylvania, School of Dental Medicine. He is an active member of several professional associations and is on the Editorial Board of the Compendium of Continuing Education in Dentistry. Dr. Baumgarten is a Clinical Professor with the Department of Periodontics at the University of Pennsylvania, and Clinical Director of Periodontal Prosthesis. He maintains a private practice focused on implant and reconstructive therapy in Philadelphia, Pennsylvania.

DATE/TIME:
On-Demand Viewing

CE CREDITS: 1
PROGRAM FEE: Complimentary

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. Zimmer Biomet Dental reserves the right to cancel or substitute this program.

TRANSPARENCY REPORTING: All payments and “transfer of value” items provided to healthcare providers will be reported as required by federal and state laws and regulations. “Transfer of value” items include meals and continuing dental education credits. The fair market value of this complimentary program will be reported as required under any transparency laws applicable in your region. In the USA, the reportable value per credit hour is USD $50.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.
