PROGRAM DESCRIPTION:
The evolution of digital dentistry has provided dental professions with a new standard in delivering restorations with both aesthetic and functional outcomes. The combination of CAD/CAM technology and intra-oral scanners allows restorative clinicians in collaboration with the dental laboratories to design and fabricate patient-specific restorations for long-term aesthetics and function. This program will review today’s digital technology; provide the clinical rationale for integrating digital workflows in the dental practice; provide an overview of the benefits and limitations of intra-oral scanners; and the design principles used in the abutment design.

PROGRAM OBJECTIVES:
At the completion of the program, participants should be able to:

- Understand the ideal workflow in order to incorporate digital dentistry in the dental practice.
- Recognize the value of utilizing advanced technologies for developing and sustaining aesthetic restorations supported by dental implants.
- Comprehend the benefits and limitations of intra-oral scanners.
- Understand the design principles used in CAD/CAM abutment design.

Jonathan Esquivel, DDS
Dr. Jonathan Esquivel, a Nicaraguan native, has made his passion for dentistry be the driving force to pursue excellence in dental treatment, patient care and academics. He received his dental training at Universidad Americana in his hometown Managua, Nicaragua. After graduating dental school, he joined a practice with his father for 4 years. His ongoing passion for prosthetics drove him to pursue specialty training in prosthodontics at the Louisiana State University School of Dentistry. After graduating from residency in 2013 he enrolled in an aesthetics and surgical implant fellowship at Louisiana State University. During this time, he has been invited to lecture for local study clubs, in state meetings, out of state CE courses and international symposiums in 7 different countries. He is currently working towards a career in academics and stands as current Assistant Professor, Department of Prosthodontics at Louisiana State University.

DATE/TIME:
Friday, November 8, 2019
Registration: 8:30 AM
Lecture: 9:30 AM – 2:30 PM

VENUE:
The University of Puerto Rico
Medical Science Campus
Second Floor – Room A-225
Paseo Dr. Jose Celso Barbosa
San Juan, PR 00921

For additional information regarding this program, please call the Zimmer Biomet Education Department at 1-800-717-4143 or email Events@zimmerbiomet.com.

Registrations are available on a first-come, first-served basis as seating is limited.
Certain state and federal laws require disclosure of information on compensation, reimbursement, or other expenses paid by Zimmer Biomet to clinicians. In this regard, clinician agrees to complete any such reporting forms and to comply with any additional information requests from Zimmer Biomet. Once reported to the applicable state and federal agencies, such information may be publicly accessible.

DISCLOSURE: Zimmer Biomet Dental manufactures and distributes products discussed in this course. This course is designed to present a fair and balanced view of all options.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.

IMPORTANT: Massachusetts and Vermont laws prohibit manufacturers of dental devices from providing free meals to clinicians under certain circumstances. Please notify your host if you are licensed to practice in either of these states.

REGISTRATION AND CANCELLATION POLICY: In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. Zimmer Biomet Dental reserves the right to cancel a course no later than 14 days prior to the course start date. Please be aware that Zimmer Biomet Dental is not responsible for reimbursement of travel expenses in the event that a course is cancelled. In the event that a registrant needs to cancel, written notification must be sent to institute@zimmerbiomet.com at least 30 days prior to the course date to receive a full refund. Cancellations received less than 30 days, but more than 15 days prior to the course date will receive a 50% refund. No refunds are provided after this date. A $25 administration fee will apply to all attendee cancellations. Please allow 2 weeks for refunds. “No shows” will not qualify for refunds.

TRANSPARENCY REPORTING: All payments and “transfer of value” items provided to health care providers will be reported as required by federal and state laws and regulations. “Transfer of Value” items include meals and continuing dental education credits.
