

# Guidelines for Immediate Loading of Dental Implants in Challenging Clinical Scenarios

ON-DEMAND WEBCAST

## PROGRAM DESCRIPTION:

Current trends in implant dentistry lead to the search for aesthetics, minimal-invasiveness, and short treatment times. This program will present new techniques that allow the clinician to achieve these three objectives with simple, predictable procedures while maintaining a success rate equal to a standard-staged approach. Complex cases previously treated with more invasive procedures, and long treatment times can be solved today with simple, predictable, straight forward techniques. New protocols, practical tips, and preliminary data from clinical studies will be presented and analyzed with the aim to give to the participants' the knowledge and tools to successfully implement in their daily practice.

**Program Fee**  
Complimentary

**CE Credit**  
1

## PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Properly diagnose and consider treatment plans for complex implant therapy cases.
- Describe new immediate loading protocols for shortening treatment times.
- Identify patients who are candidates for implant therapy.
- Select the most appropriate implant design to meet the needs of each individual implant site.
- Describe less invasive, straightforward techniques for implant therapy.

### Francesco Amato, DDS, PhD

Dr. Francesco Amato received a PhD in Biopharmaceutical Microbiology and a Degree in Medicine from the University of Catania, Italy. He participated in the Continuing Education Program in Implant Dentistry, the Advanced Program for International Dentists in Implant Dentistry and the Advanced Program for International Dentists in Periodontics of the New York University College of Dentistry. ## ADA CERP®

Continuing Education Recognition Program

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at [ADA.org/CERP](http://ADA.org/CERP).

Zimmer Dental Inc.  
Nationally Approved PACE Program Provider  
for FAGD/MAGD credits.  
Approval does not imply acceptance by  
any regulatory authority or AGD endorsement.  
01/01/2019 to 12/31/2020  
Provider ID# 208673

**REGISTRATION AND CANCELLATION POLICY:** Registration is limited to practicing clinicians. Zimmer Biomet Dental reserves the right to cancel or substitute this program.

**TRANSPARENCY REPORTING:** All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of value" items include meals and continuing dental education credits. \*The fair market value of this complimentary program will be reported as required under any transparency laws applicable in your region. In the USA, the reportable value per credit hour is USD \$50.

**DISCLAIMER:** Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.
