PROGRAM DESCRIPTION:
In this program, the surgical procedure to be performed will include extraction of failing mandibular anterior implants due to poorly positioned placement, advanced bone grafting, and extraction of periodontally involved teeth. Participants will view clinical procedures performed by a highly-skilled clinician who will explain and showcase advanced surgical and restorative techniques, helping participants to implement them into their practices. Given the cutting-edge nature of the procedures and services presented in this program, participants will be given the ability to watch the clinical procedures, then participate in an interactive question and answer session with the speaker about the techniques performed.

PROGRAM OBJECTIVES:
At the completion of the program, participants should be able to:

- Understand the importance of implant positioning for a long-term successful restoration and what the potential complications may be.
- Recognize, manage, and prevent typical complications associated with implant surgery.
- Describe how to adequately degranulate chronic granulomatous tissue in bony defects and sockets of diseased teeth and implants, as well as, perform socket grafting with membrane placement.
- Review postoperative management associated with bone grafting following extractions of implants and teeth.

Kelly A. Misch, DDS, MS, PC
Dr. Misch received a dental degree and a Master of Science in Periodontics from the University of Michigan. She is a Diplomate from the American Board of Periodontology and the International Congress of Oral Implantologists. Dr. Misch is on the Deans Faculty in the Graduate Periodontics Department at the University of Michigan and a Fellow at Misch International Implant Institute. She is a member of numerous professional organizations, including the American Association of Women Dentists, and is Co-Founder/Director of Comprehensive Dental Institute, a Michigan non-profit organization. Dr. Misch is in private practice specializing in periodontics and implant dentistry in Ann Arbor and Jackson, MI.
