

A Simplified Impression Protocol for Fabrication of Patient-Specific CAD/CAM Abutments

ON-DEMAND WEBCAST

PROGRAM DESCRIPTION:

This program has been designed for the dental team and will focus on digital technologies for the fabrication of CAD/CAM abutments for implant-supported restorations with the BellaTek® Encode® Impression System. The benefits and limitations for this system will be explained in terms of patient comfort and efficiencies for patients, staff members, and dental laboratory technicians. This technology is considered to have a “wow” factor for the practices that have adopted it.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Understand a simplified impression protocol for fabrication of implant-supported restorations with an intraoral scanner or traditional impression procedures.
- Comprehend several new digital technologies available for fabricating patient specific implant-supported restorations.
- Understand CAD/CAM abutment design using the BellaTek Encode Impression System.
- Understand how to incorporate new digital workflows into everyday clinical practice.

Alexander Wünsche, CDT

Mr. Alexander Wünsche obtained his dental technician certification in 1999 from Otto Umfried Schule, Nürtingen, Germany. He founded a boutique-style laboratory in Ravensburg, Germany. In 2009 he joined a full-service Dental Laboratory in Miami, FL, where he is currently the owner. Mr. Wünsche specializes in aesthetic and cosmetic restorations, complex implant reconstruction, and digital workflows. Recent developments include a digital workflow for the model-free production of immediate provisional restorations for single-tooth implants in the aesthetic zone and the Miami Secondary Bridge (MSB) Technique for overdenture restorations. He has several publications in dental and dental laboratory journals.

ADA CERP®
Continuing Education Recognition Program

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

Zimmer Dental Inc.
Nationally Approved PACE Program Provider
for FAGDMAGD credits.
Approval does not imply acceptance by
any regulatory authority or AGD endorsement.
01/01/2019 to 12/31/2020
Provider ID# 208673

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. Zimmer Biomet Dental reserves the right to cancel or substitute this program.

TRANSPARENCY REPORTING: All payments and “transfer of value” items provided to health care providers will be reported as required by federal and state laws and regulations. “Transfer of value” items include meals and continuing dental education credits. *The fair market value of this complimentary program will be reported as required under any transparency laws applicable in your region. In the USA, the reportable value per credit hour is USD \$50.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.
