

Full-Arch Implant Rehabilitation Surgical Cadaver Course for Surgical Specialists

Surgical Cadaver Course

PROGRAM DESCRIPTION:

This two-day program is designed for specialists who wish to refine their clinical skills treating patients for full-arch rehabilitation. The concepts and techniques taught in this program will enable participants to surgically place angled implants and deliver full-arch immediate screw-retained provisional restorations to patients at the time of surgery. Hands-on exercises will be performed in a state-of-the-art Surgical Cadaveric Laboratory, which will allow clinicians to perform real-life clinical scenarios on human tissue. A step-by-step approach will be followed to surgically place implants and fabricate immediate, functional, full-arch provisional restorations. Parameters for the design and fabrication of the definitive prosthesis will also be discussed.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Develop a strategy to utilize new technologies to provide treatment that meets patients' needs while reducing chair-time.
- Identify key clinical and radiographic data necessary to determine if a patient is a candidate for full-arch therapy.
- Diagnose, treatment plan, and set up the requisite appointments/logistics for immediate full-arch therapy.
- Plan and execute implant placement and placement of an immediate provisional restoration.
- Communicate effectively with the patient to determine their needs and wants.
- Identify the appropriate restorative components required for fabrication of full-arch provisional restorations.

Rick A. Kapitan, DDS, MS

Dr. Kapitan is a Board Certified Oral & Maxillofacial Surgeon. He has both a doctorate in surgery and masters of science degree, as well as advanced training as a specialist in surgery and anesthesia (OMS) from The Ohio State University Medical Center. Dr. Kapitan is a Diplomate of the American Board of OMS a Fellow of the American Association of OMS. He holds appointments as Adjunct Faculty in the Department of Oral & Maxillofacial Surgery at both Louisiana State University and the University of North Carolina, Chapel Hill. Dr. Kapitan is the Director of the Carolinas Center for Cleft Lip & Palate Surgery and of the Envision™ Implant Academy. He is a national lecturer and clinical course instructor in advanced dental implant surgery for Zimmer Biomet Institute. Internationally, Dr. Kapitan is a volunteer cleft surgeon, surgical team leader, and sits on the Board of Directors of the Free To Smile Foundation; a not-for-profit medical mission group that provides free cleft lip and palate surgeries to children in need around the globe.

Provider ID# 208673

DISCLOSURE: Zimmer Biomet Dental manufactures and distributes products discussed in this course. This course is designed to present a fair and balanced view of all options.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education

purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.

IMPORTANT: Massachusetts and Vermont laws prohibit manufacturers of dental devices from providing free meals to clinicians under certain circumstances. Please notify your host if you are licensed to practice in either of these states.

REGISTRATION AND CANCELLATION POLICY: In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. Zimmer Biomet Dental reserves the right to cancel a course no later than 14 days prior to the course start date. Please be aware that Zimmer Biomet Dental is not responsible for reimbursement of travel expenses in the event that a course is cancelled. In the event that a registrant needs to cancel, written notification must be sent to institute@zimmerbiomet.com at least 30 days prior to the course date to receive a full refund. Cancellations received less than 30 days, but more than 15 days prior to the course date will receive a 50% refund. No refunds are provided after this date. A \$25 administration fee will apply to all attendee cancellations. Please allow 2 weeks for refunds. "No shows" will not qualify for refunds.

TRANSPARENCY REPORTING: All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of Value" items include meals and continuing dental education credits.
