

Establishing Proper Occlusion for Single and Multiple-Unit Implant Restorations

ON-DEMAND WEBCAST

PROGRAM DESCRIPTION:

In the sea of information available in implant dentistry, there is little time taken to explain, understand, and implement the proper interaction of a prosthetic with its counterpart. Occlusion in implant dentistry can be relatively simple but time must be taken to understand some basic principles. This program will help shed some light on how a well-managed occlusion can lead to greater long-term success, both biologically as well as prosthetically.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Understand craniomandibular mechanics.
- Identify a patient's functional risk.
- List occlusal scheme categories and when to use them.
- Understand biological consequences of poor occlusal management.
- Understand prosthetic consequences of poor occlusal management.
- Implement techniques to ensure a well-designed occlusion.

Matt Milner, DMD, CDT

Dr. Milner received his dental degree from the University of Mississippi Medical Center (UMMC), and received an Advanced Education in General Dentistry (AAED) also from UMMC. He then attended Louisiana State University in New Orleans for his Prosthodontic training where he also obtained a CDT (Certified Dental Technician). Dr. Milner then worked in collaboration with another private practice prosthodontist for two years prior to making the transition to be a faculty member at UMMC. Currently, he is in charge of the preclinical dental implant curriculum as well as the dental implant clinical protocols for student clinics. He also treats private patients three days per week in a faculty practice.

ADA CERP®

Continuing Education Recognition Program

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

Zimmer Dental Inc.
Nationally Approved PACE Program Provider
for FAGDMASD credits.
Approval does not imply acceptance by
any regulatory authority or AGD endorsement.
01/10/2019 to 12/31/2020
Provider ID# 209673

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. Zimmer Biomet Dental reserves the right to cancel or substitute this program.

TRANSPARENCY REPORTING: All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of value" items include meals and continuing dental education credits. *The fair market value of this complimentary program will be reported as required under any transparency laws applicable in your region. In the USA, the reportable value per credit hour is USD \$50.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.
