

Clinical Guidelines for Anterior Implant Restorative Options

ON-DEMAND WEBCAST

PROGRAM DESCRIPTION:

This program will provide an overview of basic to intermediate implant restorative options; immediate restorative protocols will also be illustrated; it has been designed for clinicians to comfortably and predictably provide patients with implant restorative treatment options in the anterior aesthetic zone. The program will include treatment planning and design/fabrication of surgical guides. This program will also identify areas where custom implant impression copings should be considered for use for anterior implant restorations where the copings are used to capture soft-tissue emergence profiles of the peri-implant soft tissues.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Identify patients who are candidates for implant supported restorations in the anterior aesthetic zone.
- Understand prosthetic space requirements for implant restorations and integrate them into the surgical and restorative treatment planning process.
- Improve understanding and insight regarding anterior implant restorative options.
- Identify, order and use various implant impression components and the requisite techniques associated with these procedures.
- Describe the benefits and limitations of various types of implant provisional restorations.

Vahik Paul Meserkhani, DDS

Dr. Meserkhani has lectured extensively on the subject of prosthodontics and implant dentistry both nationally and internationally. He received his implant surgical fellowship from Loma Linda University in 2003 followed by a Certificate in Prosthodontics and MSD degree in Prosthodontics specialty. He has numerous publications about prosthodontics and implant related subjects as well as a recent study at Loma Linda University about the accuracy of stereolithographic models. He is a Diplomate of the American Board of Oral Implantology, a Fellow of the American Academy of Implant Dentistry, and is Board eligible by the American College of Prosthodontics. He maintains a private practice limited to prosthodontics and implant dentistry in Glendale, California.
