

Implant Restorative Guidelines: Part III—Cement-Retained Restoration Techniques

LIVE CE WEBCAST

This program will review the advantages and disadvantages of screw-retained versus cement-retained implant-supported restorations with an emphasis on cement-retained prostheses. Clinical reports regarding prosthetic and biologic potential complications associated with cement-retained restorations will be reviewed including incidences of peri-implant mucositis, peri-implantitis, occlusion, and crestal bone loss. The benefits and limitations of cement-retained single- and multiple-implant restorations will be illustrated, along with techniques to assure optimal fit between abutments and implant restorative platforms. Guidelines will be presented for proper techniques to employ for the fabrication and placement of cement-retained restorations.

After completion of the program, participants should be able to:

- Identify the benefits and limitations of cement-retained implant restorations in partially edentulous patients.
- Diagnose, treatment plan, and treat patients with cement-retained implant restorations.
- Identify the potential complications associated with using cement-retained implant restorations regarding fit, cement selection and removal, maintenance, and follow up.
- Describe various techniques used for proper cementation of implant-supported restorations.

BRUCE OUELLETTE, DDS

Dr. Ouellette received his dental degree from the University of Maryland in Baltimore, MD. His professional affiliations include the American Dental Association, the American Society of Osseointegration, the International Congress of Oral Implantology, the Florida Academy of Cosmetic Dentistry, the Florida Dental Association, and the Palm Beach County Dental Association. Dr. Ouellette is on the faculty at the Dawson Academy For Advanced Dental Study in St. Petersburg, FL and is a clinical instructor for the Palm Beach State College. He maintains a private practice with a focus on occlusion, aesthetics, implant reconstruction, and TMJ in West Palm Beach, FL.†

September 26, 2017

7:00 – 8:00pm EDT (New York)

6:00pm (CDT), 5:00pm (MDT), 4:00pm (PDT)

CONTINUING EDUCATION: 1 Credit

FEE: Complimentary*
