

Combined Surgical Procedures for Improving Aesthetics in Moderate to Severe Bone Deficiencies in the Anterior Maxilla

ON-DEMAND WEBCAST

PROGRAM DESCRIPTION:

Alveolar bone deficiency, especially in the anterior maxillary area, can prevent ideal implant placement and jeopardize the aesthetic outcome. The anatomic configuration in the atrophic site creates acquired Angle Class III malocclusion influencing the surgical choices. In this program, clinical cases demonstrating moderate-to-severe maxillary atrophy are described, including a combination of sub-nasal, sinus elevation procedure, and cases where intraoral autogenous bone blocks are used for ridge augmentation prior to, or simultaneously with dental implant placement. The ridge augmentation procedures are combined with the creation of a scaffold mixed with platelet-rich-plasma (PRP) or bone-marrow aspirate (BMA) and covered with platelet-poor-plasma (PPP) as a biological membrane.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Have an understanding for how to treat the aesthetic zone in cases with moderate to severe maxillary atrophy.
- Understand when there is a need for combined therapy.
- Have the knowledge to use PPP as a biological membrane.
- Know how to perform clinical procedures with autogenous bone blocks.

Devorah Schwartz-Arad, DMD, PhD

Dr. Devorah Schwartz-Arad received her DMD and PhD degrees from the Faculty of Medicine, Hebrew University, Jerusalem, Israel. She is a specialist in Oral and Maxillofacial Surgery and was the senior lecturer in the Department of Oral and Maxillofacial Surgery at the Maurice and Gabriela Goldschleger School of Dental Medicine, Tel Aviv University. Dr. Schwartz-Arad is the author or co-author of invited reviews and has published numerous scientific articles and abstracts. She has presented more than 100 papers at scientific meetings and international academic conferences in Israel, Europe and the United-

States. Dr. Schwartz-Arad is the owner and senior surgeon of a surgical center which focuses on maxillofacial surgery, advanced implantology, periodontology and endodontology in Ramat-Hasharon, Israel.

ADA CERP®

Continuing Education Recognition Program

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

Zimmer Biomet Dental
Nationally Approved PACE Program
Provider for FAGD/MAGD credit.
Approval does not imply acceptance by
any regulatory authority or AGD endorsement.
1/1/2019 to 12/31/2020
Provider ID# 208673

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. Zimmer Biomet Dental reserves the right to cancel or substitute this program.

TRANSPARENCY REPORTING: All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of value" items include meals and continuing dental education credits. *The fair market value of this complimentary program will be reported as required under any transparency laws applicable in your region. In the USA, the reportable value per credit hour is USD \$50.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.
