**Date:** 5 – 6 April 2019

**Course Hours:** Friday, 14.45 – 19.00 / Saturday, 8.30 – 16.30

**Title:** Cadaver Course – Protocols and Guidelines for a Predictable GBR Surgical Procedure

**Speaker:** Dr. Marco Ronda

**Level:** Advanced

## Abstract

Today regenerative surgical techniques are well-known and well-documented, but sometimes are subject to complications that leave serious concerns from the outcome of the surgical procedure.

Soft tissue management is, in fact, the key to understanding the procedure and the incorrect design of the flaps and, in particular, the inadequate application of non-invasive surgical techniques, undermine the efforts of surgeons to obtain clinical and aesthetic results that meet patient needs.

Today we can say that regenerative techniques are no longer “sensitive to operator error” but “sensitive to operator knowledge”.

## Course Objective

This advanced course offers the real feel of a clinical setting through the use of fresh, frozen cadavers. The soft tissue handles the same way as in a patient's mouth. Unlike what you may have experienced at other courses, where the density of bone is of styrofoam quality.

The participants in this didactic activity have the opportunity to express, in a definable real context, all their knowledge and that acquired during the course on the application of regenerative bone techniques. GBR flap designs, flap passivation techniques, stabilization and anatomical adaptation of barriers, definition of anatomical structures that could potentially interfere with the application of regenerative techniques will be some of the procedures that participants will learn, test and apply on human repertoire.

## Dr. Marco Ronda

He graduated in medicine in 1990 from the University of Verona and has a private dentistry practice in Genoa.

Among the many post graduate courses he attended the one-year-course advanced surgery held by Prof. Massimo Simion in Milan (2001) and attended a Master course in Regenerative Surgical Techniques at the University of Pennsylvania (2003).

He annually attends the meetings organized by the 'American Academy of Implant Dentistry' and several specialized courses on the techniques of horizontal and vertical bone regeneration.

He also participates annually at the Continuing Dental Education Program (CDE) at the New York University College of Dentistry.

In 2011 the International Journal of Periodontics & Restorative Dentistry published his study reporting a new surgical technique of lingual flap management appropriate in all cases of increase in

bone volume; in the same magazine in 2014, a new clinical study on the management of the buccal flap titled "A novel approach for the coronal advancement of the buccal flap" has been published. He is also author of an article published on COIR magazine comparing the clinical outcomes in GBR with the e-ptfe and d-ptfe non resorbable membrane.

From 2014 to date he periodically provides a semester of practical training courses in implantology and bone regeneration techniques at his private practice.

He is an active member of the IAO (Italian Academy of Osseointegration) and co-founder of the Piezosurgery Academy.

\*This clinician has, or in the last 2 years had, financial relationships with Zimmer Biomet Dental resulting from speaking engagements, consulting engagements and other retained services.

**DISCLOSURE:** Zimmer Biomet manufactures and distributes products discussed in Zimmer Biomet course. Products manufactured by Zimmer Dental, Inc or Biomet 3i, LLC may not be cross compatible. For additional product information, please refer to the individual product labeling or instructions for use. Product clearance and availability may be limited to certain countries/regions. Product information is intended for clinicians only and does not comprise medical advice or recommendations. Product information material may not be copied or reprinted without the express written consent of Zimmer Biomet.

**CONTENT DISCLAIMER:** Participant must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information provided in Zimmer Biomet courses is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet does not practice medicine or dentistry. Each Participant should exercise his or her own independent judgment in the diagnosis and treatment of an individual patients. Zimmer Biomet courses and information provided thereon do not purport to replace the comprehensive training Participants have received. Zimmer Biomet courses are designed to present a fair and balanced view of all options.

**REGISTRATION AND CANCELLATION POLICY:**

I.- REGISTRATION: Registration to Zimmer Biomet\* educational courses or events ("Zimmer Biomet courses") is limited to Health Care Professionals\*\* ("Participant/s). In order to provide each course Participant with a focused and personalized educational experience, the number of Participants is limited for each Zimmer Biomet course. Registration is accepted on a first-come, first-served basis. Registration is not confirmed until Participant receives a confirmation from Zimmer Biomet.

II.- CANCELLATION POLICY:

II.I Zimmer Biomet cancellation and amendment right: Zimmer Biomet reserves the right to amend topics, agenda, themes or panel discussions in Zimmer Biomet course program as well as given speaker, event location, day or time publicly communicated. Zimmer Biomet shall not be liable for any expenses incurred by Participants as a result of amendment implementation, including but not limited to travel and accommodation expenses and lost revenues. Zimmer Biomet reserves the right to cancel Zimmer Biomet courses at any time. If the cancellation takes place within 14 days (inclusive) prior to the starting date of Zimmer Biomet course, Zimmer Biomet will refund, in addition to registration fee, all duly accredited travel and accommodation expenses resulting from Zimmer Biomet course cancellation. If the Zimmer Biomet course is cancelled more than 14 days prior to the starting date, Participants are not eligible for the refund of any fees or expenses, excluding the registration fee.

II.II Participant cancellation right: If Participant wish to cancel, a written notification must be sent to [sophie.garzia@zimmerbiomet.com](mailto:sophie.garzia@zimmerbiomet.com). No refunds for no-shows or cancellations made within 14 days of Zimmer Biomet course starting date will be provided to Participant.

**COMPLIANCE:** Participant acknowledges that Zimmer Biomet sponsorship of Zimmer Biomet course registration fee and materials, in accordance with Zimmer Biomet policies and to the extent permitted by applicable law, do not intent to improperly induce the purchase or use of any Zimmer Biomet product or to influence any procurement decision by Participant or the Institution to which Participant is professionally related. Zimmer Biomet intended bearing of Zimmer Biomet course registration fee and education material cost will be granted independent of any sales transactions between the Participant and Zimmer Biomet. Participant represents that nothing in this Zimmer Biomet course shall be construed as an obligation on Participant to refer any patient, physician or health organization to any Zimmer Biomet supplied products or services nor it will have any effect on Participant decisions regarding the use, ordering or purchase of dental products or services. Participants acknowledge that participation at Zimmer Biomet courses do not interfere with any other obligations Participant has undertaken, in particular in connection with Participant current employment (if any) and that Participant Institution has no objections to Participant registration at Zimmer Biomet course.

**DATA PRIVACY:** The Information supplied by Registrant will be used by Zimmer Biomet Dental or its affiliates for administrative purposes and process in compliance with applicable data protection legislation. Zimmer Biomet Dental or its affiliates will comply with its respective obligations under the provisions of applicable national and EU Data Protection laws. Please check Zimmer Biomet Dental website to obtain information on Zimmer Biomet Dental privacy policy as well as contact data for questions, concerns or complaints about the policy or the collection, use, disclosure, transfer, access, or opting out of uses of personal data. Participant expressly consents to the storage and processing of his/her personal data by Zimmer Biomet for the purposes described in the previous paragraph. Zimmer Biomet informs Participant that it has implemented the technical and organizational security measures required to ensure the security of Participant personal data. Participant may exercise his/her rights of access, rectification, erasure and objection to the processing of his/her personal data on the terms and conditions laid down in current data protection legislation by contacting the following email address: [pdatos@zimmerbiomet.com](mailto:pdatos@zimmerbiomet.com). Please check Zimmer Biomet Dental website to obtain further information on Zimmer Biomet Dental privacy policy as well as contact data for questions, concerns or complaints about the policy or the collection, use, disclosure, transfer, access, or opting out of uses of personal data.

**TRANSPARENCY REPORTING:** Participants further acknowledge that certain laws, ethical rules or regulations now or in the future may require disclosure of information on compensation, gifts or other remuneration provided to health care professionals and that Zimmer Biomet and its group companies shall be entitled fully to comply with any such laws, rules or regulations when and as applicable.
