PROGRAM DESCRIPTION:
This two-day program is designed to support restoring clinicians, in conjunction with their surgical specialists, in their decision-making process when treating edentulous and partially edentulous patients with fixed and/or removable implant prosthodontics. They will learn basic to intermediate implant restorative options and techniques through lecture and hands-on exercises in a state-of-the-art Simulated Patient Training Laboratory, which allows for real-life case scenarios on one-of-a-kind proprietary simulation patients.

Day 1 will focus on diagnosis and treatment planning using basic prosthodontic principles. Information will be presented in lecture and group discussion formats. Laboratory procedures will be accomplished regarding implant/abutment impressions, master casts and fabrication of screw-retained provisional restorations.

Day 2 will focus on full arch, fixed and removable implant prostheses. The benefits and limitations of screw-versus cement-retained implant restorations, screw mechanics, abutment selection criteria, and occlusion for definitive prostheses will be thoroughly discussed. The laboratory exercises will concentrate on removable, implant-supported overdentures including clinical and laboratory steps needed in fabricating stable, retentive removable overdentures. The day will conclude with treatment planning individual cases that the attendees have brought along with them.

PROGRAM OBJECTIVES:
At the completion of the program, participants should be able to:
- Identify patients who are candidates for fixed and removable implant-supported restorations.
- Develop treatment plans for edentulous and partially edentulous patients utilizing implant-supported prostheses.
- Make implant/abutment impressions and soft-tissue master casts for definitive prostheses.
- Fabricate a multiple-unit, screw-retained provisional prosthesis for an implant-supported fixed partial denture.
- Fabricate a provisional implant with optimal gingival contours and easy access for oral hygiene.

DATE/TIME:
Friday, April 26, 2019
Saturday, April 27, 2019
Registration/Breakfast: 7:45 a.m.
Seminar: 8:00 a.m. – 5:00 p.m.

VENUE:
Zimmer Biomet Institute West
1900 Aston Ave.
Carlsbad, CA 92008

GARY A. MORRIS, DDS

Dr. Morris completed his undergraduate studies at Indiana University in Bloomington, Indiana. He received his dental degree from the University of Illinois at Chicago and completed his residency in Prosthodontics at UMKC College of Dentistry in Kansas City, Missouri. He is an Adjunct Clinical Assistant Professor at Southern Illinois University, School of Dental Medicine and was a Clinical Assistant Professor at the University of Illinois, College of Dentistry. He is a member of the American College of Prosthodontics, Academy of Osseointegration, ADA, ISDS, CDS and is the president of the Chicago Academy of Dental Research. He maintains a private practice limited to prosthodontics and restorative dentistry in Buffalo Grove, Illinois.

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

DISCLOSURE: Zimmer Biomet Dental manufactures and distributes products discussed in this course. This course is designed to present a fair and balanced view of all options.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.

IMPORTANT: Massachusetts and Vermont laws prohibit manufacturers of dental devices from providing free meals to clinicians under certain circumstances. Please notify your host if you are licensed to practice in either of these states.

REGISTRATION AND CANCELLATION POLICY: In order to provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course. Registration is accepted on a first-come, first-served basis. Zimmer Biomet Dental reserves the right to cancel a course no later than 14 days prior to the course start date. Please be aware that Zimmer Biomet Dental is not responsible for reimbursement of travel expenses in the event that a course is cancelled. In the event that a registrant needs to cancel, written notification must be sent to institute@zimmerbiomet.com at least 30 days prior to the course date to receive a full refund. Cancellations received less than 30 days, but more than 15 days prior to the course date will receive a 50% refund. No refunds are provided after this date. A $25 administration fee will apply to all attendee cancellations. Please allow 2 weeks for refunds. “No shows” will not qualify for refunds.

TRANSPARENCY REPORTING: All payments and “transfer of value” items provided to health care providers will be reported as required by federal and state laws and regulations. “Transfer of Value” items include meals and continuing dental education credits.
