

Implant Placement With Simultaneous Sinus Lift

COMPLIMENTARY LIVE CE WEBCAST

PROGRAM DESCRIPTION:

In this program, implant placement with simultaneous sinus lift and grafting will be performed with coronal advancement of soft tissue to correct gingival recession in the maxillary right posterior. Participants will view clinical procedures performed by a highly-skilled clinician who will explain and showcase advanced surgical and restorative techniques, helping participants to implement them into their practices. Given the cutting-edge nature of the procedures and services presented in this program, participants will be given the ability to watch the clinical procedures, then participate in an interactive question and answer session with the speaker about the techniques performed.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Elevate tissue in a manner to preserve keratinized tissue.
- Perform a sinus lift using a crestal approach.
- Elevate and lift the soft tissue on adjacent teeth.
- Place a dental implant in conjunction with a sinus lift procedure.

Julius E. Bunek, DDS, MS

Dr. Bunek received a Bachelor of Science, Doctor of Dental Surgery, and Master of Science Degree in Periodontics from the University of Michigan, Ann Arbor. He is a Diplomate of the American Board of Periodontology and certified in IV Sedation. Dr. Bunek is a past President of the Bunting Periodontal Study Club, and an active member of several professional associations. He lectures nationally on the topics of advancements in periodontics and dental implants. Dr. Bunek is a reviewer for the Journal of Esthetic and Restorative Dentistry and is on the Editorial Board for the Dental Advisor.
