Puros® Dermis Allograft Tissue Matrix

The Natural Choice For Soft-Tissue Augmentation

1 Versatile Soft-Tissue Augmentation
Utilized for both horizontal and vertical soft-tissue augmentation and Guided Tissue Regeneration procedures
Reduces morbidity and saves valuable chair time by eliminating the need to harvest an autogenous graft
Offered in four sizes and two thicknesses

2 Natural Regeneration
Retains the natural collagen matrix, content and mechanical properties of native dermis
Provides a healing environment and acts as a guide for the regeneration of vital soft-tissue
Demonstrated successful soft-tissue response and maturation

3 Sterile
Sterilized using the proprietary Tutoplast® process
Excellent handling, rapid hydration

ZIMMER BIOMET
Your progress. Our promise.
A Variety Of Clinical Advantages

- Puros Dermis Allograft Tissue Matrix is a high-quality regenerative material, exhibiting multidirectional strength and adaptability to surface contours.
- Rehydrates quickly, no refrigeration required, packaged sterile and no residual antibiotics.
- Successful clinical history in other surgical applications.
- Petrungaro found enhanced volume by maintaining space to allow for angiogenesis, tissue remodeling, and increased volume of attached gingiva and connective tissue.
- Biocompatible and absorbable; assimilates into the body’s normal tissue healing process at the histological level.
- Four convenient sizes and two thicknesses can be cut to shape for specific procedures.

10-day post-operative. Note: excellent soft-tissue integration.

30-day post-operative. Note: aesthetic tissue blending and color.

The Unique Tutoplast Process

The proprietary Tutoplast process assures the highest standard of tissue safety and quality.

The process preserves the valuable collagen matrix and tissue integrity while inactivating pathogens and gently removing unwanted materials, such as cells, antigens and viruses. The result is safe, biocompatible tissue.

For over 40 years, Tutoplast processed tissues have been safely used in more than five million procedures.
